# PROGRESS REPORT

Project Manager: Yifei Pei
from Group 2: Coding Pharaohs

OVERALL SCHEDULE

GANTT CHART VIEW

ACHIEVEMENTS

- Poster

- SRS first draft

- SPMP first draft

- Milestones for Week 5, Week 6, Week 7, and Week 8

- Milestones for Week 9, Week 10, and Week 11 have been self-defined

PERFORMANCE

- Depending on client feedbacks, we are doing well on Milestones

- Depending on client feedbacks, documents don't have perfect quality

- Group members are good at individual allocated tasks but lack of cross-group communication

PARTIAL FINISHED

- SDD first draft

- Parts of programming completed, not in an organised structure as a whole

- System design process
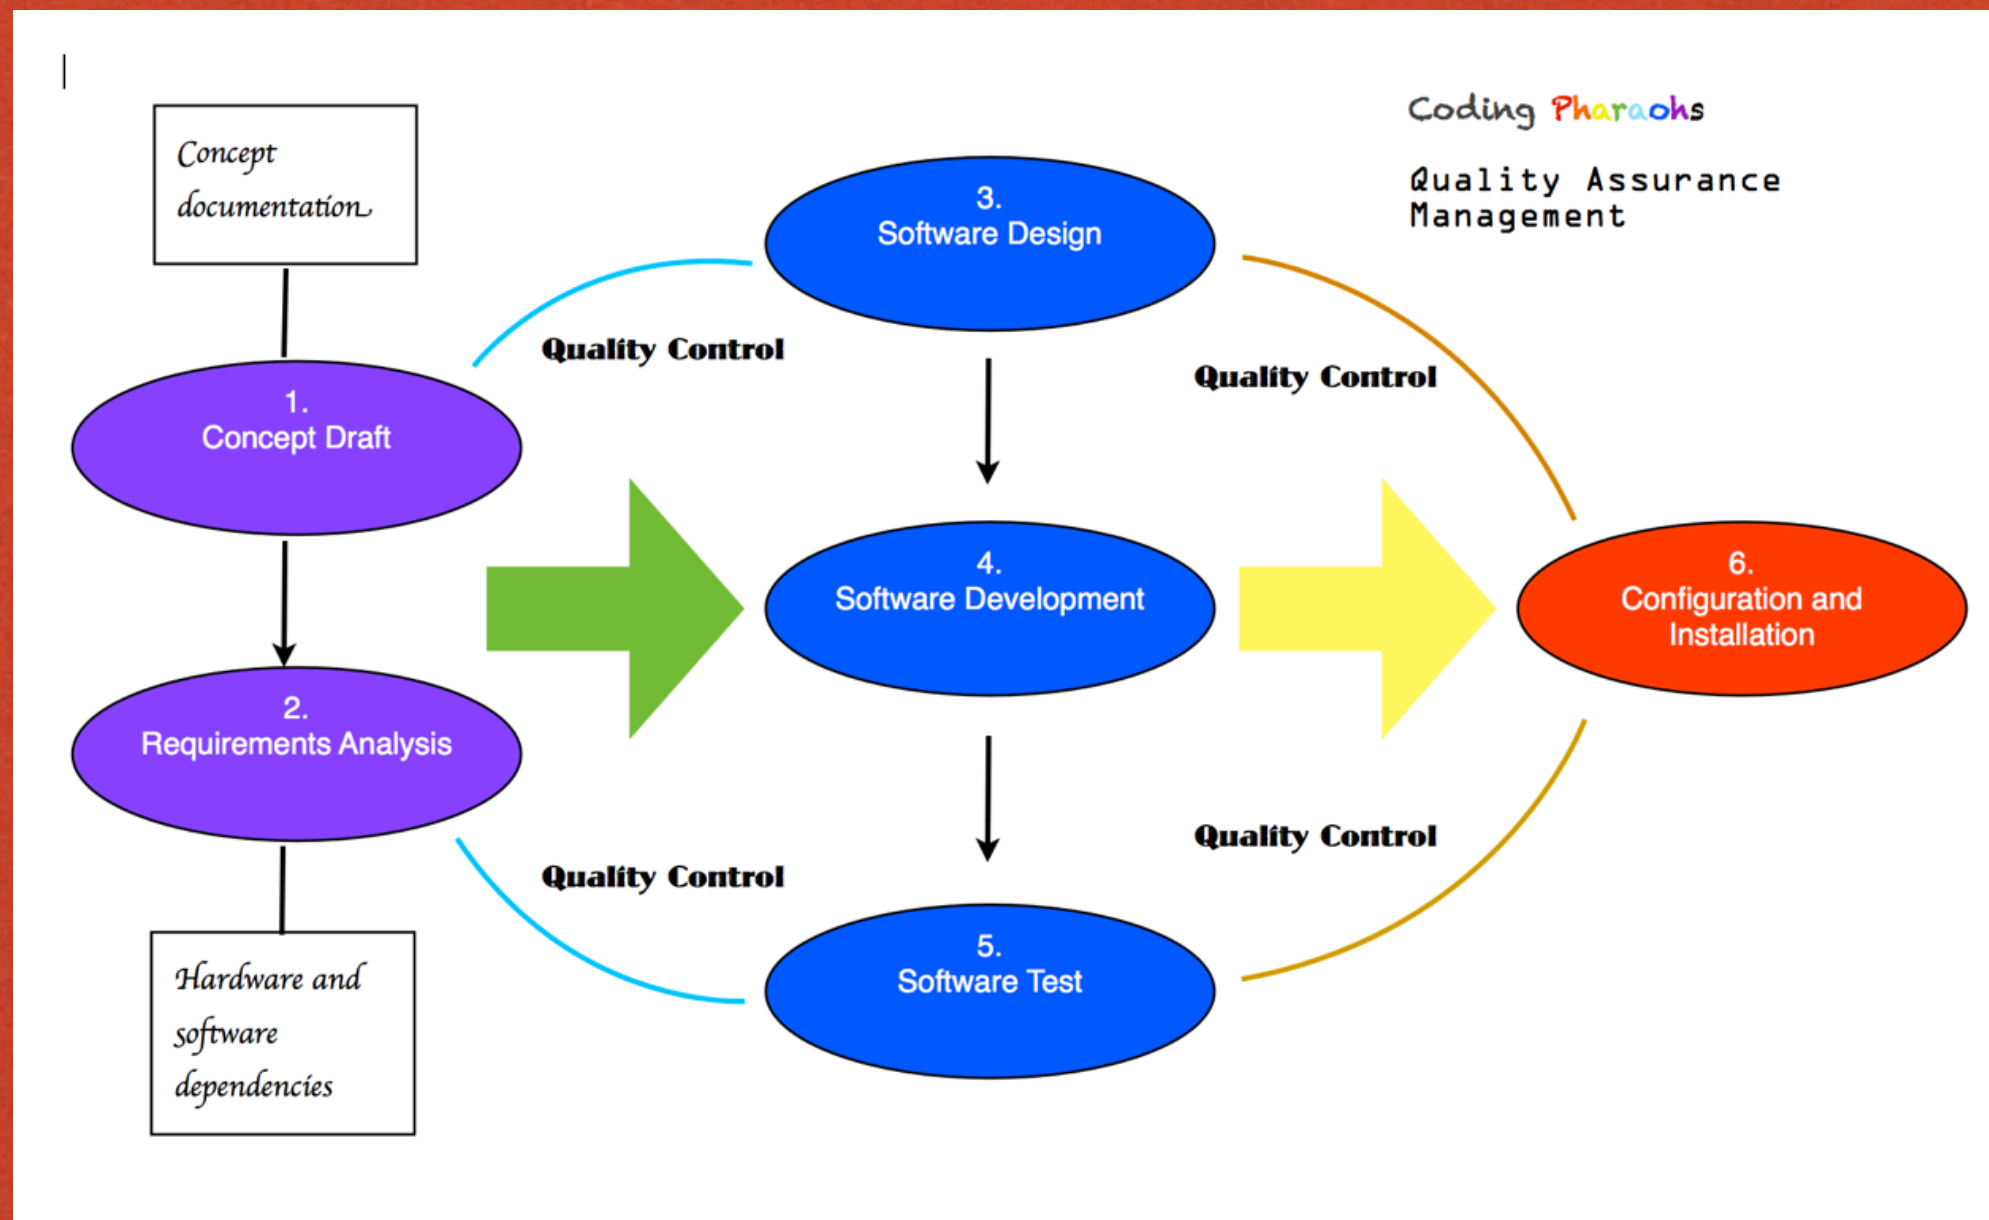

PROGRESS OF PROJECT

- Processes that have completed: Project initiating, Requirement Collection

- Process that is in progressing: System Design

- Processes that need to complete: Implementation and Unit testing, and Integration and System testing

DELIVERABLES IN THE FUTURE

- SDD, due on 19 September, Friday of Week 8

- Milestones for Week 9, Week 10, and Week 11

- Final software versioned depending on milestones

- User manual for the final version of software

- Testing Reports: individual reports and group report

- Final demonstration of software

PLANS

- Before mid-break finish the software design part of system design, with the delivery of SDD first draft

- Mid-break to do the majority of the development part: combine the existing and new improvements

- Week 9 - 13 to do the majority of testing and outcomes delivery

QA DIAGRAM

THIS WAS FOR QA, BUT CAN STILL INDICATE SOME FURTHER WORKS FOR THE PROJECT NOW

THE END

- Thank you
